WORK EXPERIENCE

Telepathy Infotech Pvt. Ltd.

Software Developer

Jan 2025 – Present

Jaipur, India

- Architected and deployed a **multi-tenant SaaS infrastructure** on AWS (EC2, S3, RDS) with Docker and Nginx, achieving high availability and fully isolated environments for **4+ enterprise clients** simultaneously.
- Engineered **end-to-end RESTful API ecosystems** with JWT authentication, RBAC, and rate limiting; integrated Twilio, SmartPing, Firebase, and EaseBuzz payment gateway across **3+ live production systems**.
- Slashed long-running operation times by **over 40%** by implementing Celery and Redis for asynchronous task processing and intelligent caching, directly improving report generation and bulk query performance at scale.
- Enforced **HIPAA-compliant data security** on the OkCare hospital platform through AES encryption, strict access control policies, and secure storage standards for sensitive patient records in a high-traffic environment.
- Spearheaded **Agentic AI research and development** for HomeLead, architecting an autonomous LLM-powered chatbot pipeline that qualifies leads and resolves customer queries in real time without human intervention.

Telepathy Infotech Pvt. Ltd.

Software Developer Intern

Jul 2024 – Dec 2024

Jaipur, India

- Gained hands-on experience with **Frappe and ERPNext** framework, understanding the architecture, module system, and Customization patterns used in enterprise ERP solutions.
- Contributed to the development and Customization of an in-house **HRMS** built on ERPNext, working on payroll automation, leave management, and employee tracking modules under senior developer guidance.
- Learned and applied best practices for **Python-based backend development**, version control workflows, and collaborative development in a production environment.

PROJECTS

HomeLead | homelead.in / Node.js, PostgreSQL, Redis, Socket.io, Firebase, AWS S3, Docker, Nginx, Meta APIs, Payment Gateway

- Delivered a **subscription-based SaaS** real estate CRM and ERP platform for builders and brokers, handling leads, inventory, sales pipeline, finance, and document management with automated follow-ups across **100+ active users**.
- Integrated an **Agentic AI chatbot** using LLM pipelines, enabling autonomous lead qualification and cutting average query response time by **60%** compared to manual support workflows.

OkCare | okcare.in / Django, DRF, PostgreSQL, Celery, RabbitMQ, Redis, Socket.io, Firebase, AWS S3, Docker

- Engineered a **multi-tenant hospital management platform** with a subscription-based model, covering patient records, appointments, billing, laboratory, pharmacy, and inventory for **enterprise healthcare clients**, with full HIPAA-compliant data security.

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, C, Dart

Frameworks & Libraries: Django, Django REST Framework (DRF), FastAPI, Node.js, Next.js, React, Frappe, ERPNext

API Development: RESTful API Design, JWT Authentication, OAuth2, Role-Based Access Control (RBAC), Rate Limiting, Third-Party API Integration

Databases: PostgreSQL, MySQL, MariaDB, MongoDB, Vector Database, Redis (Caching)

Cloud & DevOps: AWS (EC2, S3, RDS), Docker, Nginx, GitLab CI/CD, Jenkins, Linux

Async & Messaging: Celery, RabbitMQ, Redis, Socket.io, Firebase, WebRTC

Security: HIPAA Compliance, Data Encryption, Secure Storage, Access Control Policies

Tools & Practices: Git, GitHub, Postman, Swagger, VS Code, SDLC, Unit Testing, Code Review

CERTIFICATIONS

Introduction to Cloud Computing — IBM · Coursera

Completed November 2024

Cloud Computing, Cloud-Based Integration, Cloud Applications, IBM Cloud, Cloud Storage

What is Data Science? — IBM · Coursera

Big Data, Machine Learning, Applied Machine Learning, IBM Cloud, Cloud Computing, Data Management, Data Analysis, Deep Learning

ACHIEVEMENTS

- Runner-Up, College Hackathon (2023)** — Secured second place among competing teams, demonstrating strong problem-solving and rapid prototyping skills under time constraints.
- 5-Star Coder on HackerRank** — Achieved a 5-star rating in coding challenges, reflecting proficiency in algorithms, data structures, and competitive problem-solving.

EDUCATION

Vivekananda Global University

Bachelor's of Computer Application

2022 – 2025, Jaipur, India

CGPA: 8.4 / 10
