WORK EXPERIENCE

Telepathy Infotech Pvt. Ltd.

July 2024 – Present

Software Developer

Jaipur, India

- Architected and deployed a multi-tenant SaaS infrastructure on AWS (EC2, S3, RDS) using Docker and Nginx, achieving high availability and fully isolated environments for the company's own products and client projects.
- Engineered end-to-end RESTful API ecosystems with JWT authentication, RBAC, and rate limiting; integrated Twilio, SmartPing, Firebase, and the Easebuzz payment gateway across 3+ live production systems.
- Reduced long-running operation times by over 40% by implementing Celery and Redis for asynchronous task processing and intelligent caching, improving report generation and bulk query performance at scale.
- Enforced HIPAA-compliant data security on the OkCare hospital platform through AES encryption, strict access-control policies, and secure storage standards for sensitive patient records in a high-traffic environment.
- Designed the end-to-end backend architecture for Vijay ENT, a Django-based microservices system spanning OPD, IPD, master data, and configuration services, ensuring modularity, scalability, and clean separation of concerns across the HMIS platform.

PROJECTS

HomeLead | homelead.in

FastAPI, PostgreSQL, Redis, Socket.io, Firebase, AWS S3, Docker, Nginx, Meta APIs, Payment Gateway

- Delivered a subscription-based SaaS real estate CRM and ERP platform for builders and brokers, managing leads, inventory, sales pipeline, finance, and document workflows with automated follow-ups for 100+ active users.
- Migrated and rearchitected the backend on FastAPI, improving request throughput and API response times through asynchronous request handling and Pydantic-based validation.

OkCare | okcare.in

Django, DRF, PostgreSQL, Celery, RabbitMQ, Redis, Socket.io, Firebase, AWS S3, Docker

- Engineered a multi-tenant hospital management platform with a subscription-based model, covering patient records, appointments, billing, laboratory, and pharmacy operations for enterprise healthcare clients.
- Implemented HIPAA-compliant data security across the platform, including encryption, access control, and secure storage for sensitive patient records.

Vijay ENT

React, Next.js, TypeScript, Redux Toolkit, Tailwind CSS, Django, PostgreSQL, Redis, JWT

- Built an enterprise Hospital Management Information System (HMIS) for an ENT clinical facility, with a FastAPI microservices backend spanning OPD, IPD, master data, and configuration services.
- Developed a strongly-typed React 19 / Next.js 15 frontend with Redux Toolkit and Zod-validated forms, backed by JWT authentication and Redis-backed caching.
- Integrated QZ Tray for silent receipt and label printing, and automated PDF report generation using ReportLab and Svglib.

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, C, Dart

Frameworks & Libraries: Django, Django REST Framework (DRF), FastAPI, Node.js, Next.js, React, Frappe, ERPNext

AI & LLM: LangChain, LangGraph, OpenAI API, Anthropic Claude API, Prompt Engineering, RAG (Retrieval-Augmented Generation), Vector Embeddings, Multi-Agent Systems

API Development: RESTful API Design, JWT Authentication, OAuth2, Role-Based Access Control (RBAC), Rate Limiting, Third-Party API Integration

Frontend State & Forms: Redux Toolkit, React-Redux, React Hook Form, Zod, Framer Motion

Databases: PostgreSQL, MySQL, MariaDB, MongoDB, Vector Database, Redis (Caching)

Cloud & DevOps: AWS (EC2, S3), Docker, Nginx, GitLab CI/CD, Jenkins, Linux

Async & Messaging: Celery, Redis, Socket.io, Firebase, WebRTC

Security: HIPAA Compliance, Data Encryption, Secure Storage, Access Control Policies

Tools & Practices: Git, GitHub, Postman, Swagger, VS Code, SDLC, Unit Testing, Code Review

CERTIFICATIONS

Introduction to Cloud Computing – IBM · Coursera

Cloud Computing, Cloud-Based Integration, IBM Cloud, Cloud Storage

Nov 2024

What is Data Science? – IBM · Coursera

Big Data, Machine Learning, Data Analysis, Deep Learning

Nov 2024

EDUCATION

Vivekananda Global University

2022 – 2025

Bachelor of Computer Applications

Jaipur, India

- CGPA: 8.4 / 10
